Greatest of All Human Blessings

The most wonderful thing in the world is love expressed in the helpless infant.

And among those who are blessed with a child, the greatest of all human blessings is the love of a mother.

This is an external application to enable the abdominal muscles to become more pliant, to expand naturally without undue strain upon the cords and ligaments.

Applied as directed upon those muscles involved it soothes the fine network of nerves with which all the muscles are supplied. Thus a great share of the pains to which women are subjected and the period of expectancy passed in comfort.

There is no question but what such relief has a marked influence upon the general health of the mother.

In a little book sent by mail much useful information is given to inexperienced mothers. It tells how to use "Mother's Friend" and how to avoid caking breasts. It has been prepared in our laboratory for over forty years and is known favorably to most druggists everywhere. Get a bottle to-day and write for book to: Bradford Regulator Co., 203 Lamar Bldg., Atlanta, Ga. Be sure to ask for and see that you get "Mother's Friend."

"Gets-It" for Corns on Your Piggy-Wiggies!

Quit Pattering With Corns. Use This Sure, Non-Plan Corn Cure.

A few drops of "GETS-IT" the biggest seller in the world today of any corn remedy, is enough to put the corn down to the fiercest corn that ever cemented itself to a toe. It's ever cemented itself to a toe. It's

These little toes had "GETS-IT"

These little toes had none.

Good-bye Johnnie. You apply "GETS-IT" in two seconds—no fussing with plasters that don't stay put, with knives that make corns "pull" and make the toe heavy and raw, with knives, scissors, razors and dippers that make corns grow faster and that may cause blood poison from corn-cutting and corn-eating. "GETS-IT" shrivels up corns, they come right off. That's the principle. It's just common sense. "GETS-IT" is safe, and never hurts the flesh. Get rid of corns and calluses. "GETS-IT" is sold at a bottle by all druggists, or sent direct if you wish, from E. Lawrence & Co., Chicago—Advertisement.

Dyspeptics Warned By German Physician

Prof. Riegel, World-Famous Authority on Stomach Diseases, Points Out Lurking Danger.

Frank Riegel, Professor of Clinical Medicine in the University of Giessen, pronounced the world's greatest authority on diseases of the stomach, makes the positive statement that peptic must not be used in treating acidity of the stomach. Millions of people are taking all sorts of dyspepsia tablets because they contain peptic which affords slight temporary relief. But every dose contributes to the harm in time. What is needed is something to neutralize the excess acid. The best thing for that purpose is ordinary disordered magnesia. You can get it at any drug store for a few cents. Take a teaspoonful in a quarter glass of water after each meal. You will get immediate and complete relief with no danger or bad after effects. Authorities agree that acidity is the cause of nearly every form of stomach disorder, and if not checked it is likely to lead to stomach ulcers and cancer.—Advertisement.
